1. Earth as a School for Human Growth and the Correcting Time
2. Human Relationships and the Need for Compassion
3. Progress on the Planetary Pulse Magazine
4. Team Coordination and Final Technical Tasks
5. Personal Connection and Family Relationships

Session introduction by Kona

Kona: Hi, good morning. It is July 30th, 2026. I'm Kona Lisa Mahu with the Center for Planetary Management. I'm here today with the team. We have Bob in Texas, Evan in the Philippines, Juan in Venezuela, Jacques is on vacation with family, and so we are about to head into our meditation, and we'll see if we have a message.

Evan is our TR today, if we have a message, so let's see how this goes.

Centering moment as a Team by Kona

Kona: So right now, wherever you are joining us, either part of the team or later when you see this broadcast, please just take a moment to relax in your chair, settle in. We've bonded and talked about all of the prevailing world issues in our localities. Just let all of that that you're dealing with in your world rest. And if you know Christ Michael,

Mother Nebadonia, or Christ Jesus, just say, please take these burdens from me right now and let them go, and just rest in your chair for a brief meditation.

As we go into this quiet time, just check in with your body; head and neck and shoulders for tension. Take a deep breath. And let all of that tension of the world subside. Check in with your arms and your torso, any tightness? In your chest or back, take a deep breath and let it go. And then in your legs, your knees, your calves, and your feet, check in with any tension take a deep breath and let it go.

This practice of stillness and centering is how we get encircled with each other here at the Center for Planetary Management with the team that is present on the call, and those that cannot be present with us physically today. But we know that they're with us. Just as the Celestial Planetary Management Team is always with us, our TAs, our Thought Adjusters, our Guardians, Guides, Angels, the Divine Presence within and without are always with us. We are never alone and neither are any of you who are listening to this in the future. Take another deep breath. Let it go and just feel the presence of the Spirit Within, the Father Fragment within. Take about 3 minutes of silence.

Evan: Okay. I think I have a message from Sondjah.

Main Addresses with Sondjah

1. A Work of the Heart for the Benefit of the Whole Human Race

Sondjah: Good day, everyone. This is Sondjah Melchizedek, and I'm here at the Sea of Glass and a lot of us are here watching you, deliberate among yourselves about things that have happened individually, nationally and collectively, and sometimes feel the difficulty you go through.

But ladies and gentlemen, these are really passing, passing things in your world. The world will continue in spite of all the changes that you see, all the wars, all the destruction, all the calamities natural or not natural [that you see]. It will go on, because the universe will always be there. Because the Universal Father is always watching and it is always in His hands. So, all of you, all of us, are in His hands.

It's just a simple message and important message that I wish to bring to you. As you are working to bring about and create, co-create with us, this magazine that you are all involved with. It is a work that you do from the bottom of your hearts, and we deeply appreciate that. And we can see how diligent and hard-working you have all been. And how important it is for you, as well as for us, as well as for the whole human race.

So, this is part of the work that we have been doing for many centuries there. And it is a quite meaningful one, because it brings several individuals who are aware what it will take to make your planet sustainable, true, and good, and beautiful, which are the things that the universe is, as God is: Truth and Beauty and Goodness. So, keep those things in mind.

This is just a temporary place for you and this temporariness is a very important thing for each individual here in your planet, it is the most important thing. Because while they are here, people often do not listen to their Thought Adjuster, to their Angels, or to their Guardians. They simply will not listen. Part of what you are doing is going to help them listen and inspire them.

And see how things will go if they agree with what you say. You just have faith in God, believe in Him, and loving Him, and everything that He has done for his children. So, this is all what I wanted to tell you today. Thank you so much. Good day.

Kona: Thank you, Evan. Thank you Sondjah.

Evan: Was that clear?

Kona: It was clear and a very welcome message for today, especially in the challenges that we continue to face, so thank you very much, Evan, for being present as a TR and bringing forth Sondjah. Any other questions for Sondjah? I don't know if Sondjah's taking questions today. Appreciate that message. It's always good to be reminded that this is temporary, right? It is the "Earth School".

Evan: That's cool, that's nice.

End of Part 1
