1. Overview
2. Spreading the Message & Identifying the Audience
3. Website Content & User Experience (SEO)
4. Magazine Accessibility & Technical Issues
5. Organization & Future Tasks
6. Action List (7 Items)

Session introduction by Kona

Kona: Hi folks, I'm Kona Lisa Mahu with the Center for Planetary Management. It is August 17th, 2026. We're a small group today, Jacques in France, Juan in Venezuela, and myself in New York. We have a lot to talk about now that the magazine has been launched, but first, before we wear out our brains, let's connect with you and connect with each other. Jacques, take it away into our meditation, please.

Centering moment as a Team by Jacques

Jacques: Okay, thank you my Friends, we took a week away to return very fresh for this session and ready to learn more about what's happened with the new launch of the 1st issue of the Planetary Pulse Magazine.

So, before we work, just relax on your seat, stay calm, take some deep breaths. Relax your body, relax your mind and stay comfortable on your seat. And now imagine this beam of light coming from the center of the universe to your crown chakra, down through all your chakras, down to the Earth. It's a healing light, removing all interferences around you.

Now connect with your Thought Adjuster and your Guardian Angels. As human, we will connect starting by our heart line, clockwise around the globe, collecting those who are missing today because they cannot join. And we connect our mind line counter-clockwise around the globe, so that, as human, we are encircuited as one: one mind, one heart, one soul.

And it is time to invite our celestial Friends, our Planetary Management Team from above: Machiventa Melchizedek, Sondjah, Asaiah., and those on the Sea of Glass who are looking at us very often, as well as our Stellar Friends from far away. We stay silent for three minutes.

Opening Prayer by Juan

Juan: Beloved Heavenly Father. We gather today with gratitude and humility, and with a sincere intention, so that we may grow in our ability to do your will. We ask that you give us a vision, that you lead us to paths of service in which we can participate now as active members of this co-creative process to heal our planet.

We pray that those who read or hear these words also find them in their hearts, so that they may use the wisdom that your paradise children impart, in the way that best serves them. In doing so, we are grateful to Christ Michael, to Mother Spirit, and to many other invisible friends who surround us with energy and light as they guide us through our lives. Amen.

Jacques: Amen. Thank you, Juan, for this beautiful prayer. Yes, we need to be guided by those Celestials around us. And Kona, I don't know if you feel the presence of a Celestial around, but I think that after a week of rest, they are very keen to join this team here, as we are willing to receive a message today.

Main Addresses with Celestials

Kona: Well, you'll be as surprised as I am that as we're sitting here, I'm being introduced to someone new that I've never met before. And so, with someone new, I have to say: Christ Michael, mother Nebadonia, do you approve? And, you know, Father Melchizedek, Machiventa Melchizedek and Machiventa says, yes, this is a Beloved Friend. And Sondjah said, a Dear Colleague, and this is Ashti Melchizedek. And I've never met Ashti or heard of Ashti, so, of course, anytime there's someone new, I say, use your discernment and listen, and let's see what Ashti has to share with us today.

And I perceive it's Ashti Melchizedek [spelling] A S H T I. So, we'll see what Ashti has to say.

Main Addresses with Ashti Melchizedek

1. A Message of Appreciation and Encouragement from Ashti Melchizedek

Ashti: My beloved Friends, I have watched you from afar. This is Ashti, and I've been very interested in the work that you have been doing, and wanted to simply drop in, and give you my commendations ["my commendations" = my expressions of praise/approval] and appreciation for the strength that you have shown to persevere in a time of very difficult times on your planet. It is such chaos there that I admire your strength to carry on this work that is so palpably different from what you are perceiving in your daily lives.

So, this is a brief message, but I wanted to share my personal appreciation for your fortitude in all that you are doing as we continue to work on this side and admire the work that you have done [and] continue to do and again, your strength and perseverance under such extremely difficult circumstances.

Please know that there are others who also wish to send their commendations and over time, they may appear as well in this, a brief statement such as this, in order to communicate to you their tremendous appreciation and gratitude. It is not easy being in the human mortal form, as we can see, though many of us have never even experienced such a thing, have not incarnated on a planet as such as our magnificent Machiventa has.

So, we watch eagerly to see how these things happen and come with great interest in the changes in what you are experiencing as mortals. As we graciously watch by, please note that we do send our gratitude, our love, and appreciation once again. Thank you.

Jacques: Thank you, Ashti. Ashti is a new name for us, and we are so pleased to have your Melchizedek group, your team of Melchizedeks, assisting this team here on Earth. We know, and you know, that it is a difficult time on Earth. But we live here at this time; we can still be joyful and happy to be part of this co-creative work. Thank you so much, Ashti.

Ashti: Thank you again. And I have here with me Sondjah, who also wishes to address your team.

Main Addresses with Sondjah

2. A Message of Appreciation and Support from Sondjah

Sondjah: Good morning, Team. This is Sondjah, your ever-loving colleague, also with great appreciation and grateful that you each took time away to rest and strengthen

yourselves under the circumstances. Well done in the publication that is now ready to be distributed at your further leisure, as you have so greatly desired to do since the very beginning. It is quite profound, the amount of material that you have included, and we will be careful to drip this into the public, as you might say, alongside of you, so that they can take tidbits here and there over a period of time, not too much to be overwhelmed by.

But this is quite a lot of work, and you are clearly refreshed and rejuvenated, and we are pleased that you did take time to refresh yourselves. So, we will keep this brief so that you can move on to the business at hand, but know that, again, we are here with you watching and available.

Thank you for your questions in order to promote the work that you have done, know that our Midwayers are already busy putting little tidbits out there into your mortal universe for people to find the magazine. Thank you so much.

3. Reduce Barriers to Access to the Magazine

Jacques: Thank you, Sondjah, thank you, Kona. Sondjah, I have a question. We have... We made efforts to publish what we felt was appropriate articles for the first issue of the magazine. My question: Is there something important we have missed on this first issue that needs to be published on the second issue?

Sondjah: As I have been communicating with this one, it is not so much what you have missed, but you need to reduce the barriers for people to receive this publication and possibly the future publications much more easily, than what they have to do in your registration process.

We wish to distribute this widely, and some will not want to go through that registration process, so, you will discuss this. As for the second one, we are quite content to work with the first one, as it is right now, as it lays a very strong foundation for what we want folks to know, and so the second one will not be of concern at this time.

Jacques: Thank you, Sondjah for this clarification about the distribution process to facilitate a wide distribution. Thank you, it's an important point that we will take, and we will discuss it today between ourselves. Team, do you have a question for Sondjah?

Juan: I want only to thank Ashti and Sondjah for their presence as they are observing and guiding us, which is something very essential for us to be able to do the work for which we are entrusted. Thank you very much for everything, that special attention you have had with this group, and we hope to accomplish very good things that serve everyone.

Kona: This is Kona and I'm experiencing a tremendous emotional response to you, Juan, from them, from the Celestial Team, in appreciation for your extended gratitude for their presence. Just, it's very overwhelming.

Juan: Thank you, Celestial Team, thank you Kona.

Jacques: Never heard the name Ashti before.

Kona: Yeah, and interesting that they would say, you know, they have not incarnated like Machiventa has, and so they don't have the mortal experience, so they have this interest in how mortals are handling the challenges on the planet. I think that's interesting. We don't know whether Sondjah's ever done that either.

End of Part 1
