Session introduction by Kona

Kona: Hi, good day. It is August 20, 2026. I'm Kona Lisa Mahu with the Center for Planetary Management. We've just had our check-in, as we do at the beginning of our meetings, so that we can get reacquainted with each other after being away for a few days, or sometimes even a week.

And now we're headed into our meditation to quiet our minds and settle our spirits and connect with each other in our Celestial Planetary Management team. So, Jacques, please take it away.

Centering moment as a Team by Jacques

Jacques: Thank you, Kona; yes, my friends, before we start working, please make you relax on your seat. Take some deep breaths. Quiet, your mind. Imagine this beautiful beam of light coming from the center of the universe to your crown chakra down through all your chakras, down to the earth. This particular God light is healing

you, eliminating old negative energies around you. And now you are connected with the universe.

Now we connect as human, started by the heart line clockwise around the globe collecting those who are missing today. And we connect our mind line counter-clockwise around the globe, so that we are encircled as one.

It is time to ask now our Celestial Management Team from above: Machiventa, Sondjah, Asiah and Ashti Melchizedeks, and those who want to join, including those on the Sea of Glass, always watching us, loving us. We also include our Stellar Friends who love us and teach us. We stay silent for three minutes.

Opening Prayer by Bob

Bob: Dear Heavenly Father, we thank you for this opportunity to be gathered together today in the CPM group. We pray that your blessings be upon us and your spirit will be with us. We ask that we remember our friend Ron Besser who passed away recently. We wish him a safe journey to the Mansion Worlds. May he be able to see what is the truth there and what is really going on, and have the mindset to be able to ascertain the truth in these matters.

Father, we ask you to bless him and help him on his journey, and we say these things in the name of the Son, Jesus Christ. Amen.

Jacques: Thank you, Bob for your prayer. I don't know if we will have a message today either from Evan or Kona.

Evan: I'll try to see what Machiventa is trying to say.

Main Addresses with Machiventa

1. Machiventa: The Seed of a Growing Celestial Message

Machiventa: Good day, my Friends. This is Machiventa. And I'm your Planetary Manager, you know, telling you that you have done a very good job on your magazine. And we are very happy to tell you that many people are now listening to your articles, reading your articles, and really trying to take in your message there.

You know very well that my message is right there in front [of the magazine]. And that should give them a good introduction of the total message that we are, as a team, co-creating and relaying to as many people as possible. This message is very important. It has to reach as many people as you can, as it can. Because it is quite an astounding announcement to make. It is not an ordinary announcement.

It will take a very broad mind and deep mind to take that message in. That we Spirits are here, our Celestial Teams are here and we are ready to assist the individual who asks, that person who has the courage to speak with us. And we will await that moment with these individuals having that courage. And then possibility will come, depending

on what they see, what they read, and how they feel about all these things that are written in that magazine.

So, we would like you to continue your work. Make it as simple and teachable as you can. **A lot of people need to hear the Word of God.** They need to hear from God. And they need to understand, as they have so many questions, problems, anxieties, fears, and all sorts of things that they cannot understand. And so, there is very little peace in their minds and in their hearts. And that is our work to make them feel at ease with the thought that God [who] is there with them, the God Presence, it's there all the time.

Thank you again for your marvelous work. And we will come again. Come to us again if you ever need anything. As all this is just the initial stage. You'll have more work to do, and we'll see that this is the seed that will take root. And you will see it grow into a fruitful tree that you cannot even imagine what it will be. Thank you again. Have a good day.

Jacques: Thank you, Machiventa, for your words, and thank you, Evan. Yes, thank you, Machiventa, because your image of the “seed” really resonates with me. Considering that this first issue is a seed that will grow, grow, and grow, we are very confident about what it will become. Thank you again

Kona: Thank you, Evan. Thank you, Machiventa. Thank you, Jacques, for facilitating. I thought we might have a message from Sondjah. Let me check in since we had Machiventa. Give me one moment.

Main Addresses with Sondjah

2. Sondjah: Reassurance on the Ascension Journey and Guidance Through Change

Sondjah: Yes, good morning, this is Sondjah, also with you here. Good day, Team, as Machiventa says, you have done well with this initial issue of the magazine, and we are quite proud of the work that you have done, and many people are, in fact, beginning to receive this word.

As for your friend Ron [Besser], who has begun his ascension career, rest assured that he is in the palm of Christ Michael's hand, with him and Mother Nebadonia, and progressing quite well. He will continue on as that is his choice. So be assured that anyone who chooses this ascension career will be guided in the next stage of the process. You can have no worries about his state of being and his condition under the circumstances.

We simply wish to assure you that, considering what you experienced on the planet, things are quite different after one passes into the Morontial Realm and into the Mansion Worlds after they spend some time in the Resurrection Halls. He has chosen

to move forward, so we are excited for this choice and will accompany him along his way.

As for the other things you are experiencing in your climate, yes, many changes continue to take place, and as we have expressed before, do your very best to stay focused on the work at hand, and we will continue to guide you in the process, and even in your daily chores and how to manage these climate changes. You rest assured as well that you will always be taken care of, even if the farmers have a bad report for the year. You will always have everything that you need. We know that you have very many things to discuss. We are here with you if you have questions or need to consult with us, but you are on the right track, so please proceed. Good day.

Jacques: Thank you, Sondjah.

Evan: Thank you, Kona and Sondjah.
