### **Session introduction by Kona**

**Kona:** All right. Good day, friends. I'm Kona Lisa Mahu, with the Center for Planetary Management. We're getting our day rolling. We have Jacques in France, Juan in Venezuela, Bob in Texas, and I'm in New York, USA. We've had our check-in around the world to see what's happening in each of our countries and localities. We've all been talking about the fresh markets and local sustainability this morning. And now, before we get into the meat of our meeting, we are going to take some time to relax in our chairs and have our meditation. Jacques, you do such a great job, take it away.

### **Centering moment as a Team by Jacques**

**Jacques:** Thank you, Kona. Yes, before we go working, just get relaxed. Relax on your seat, make yourself comfortable. Quiet your mind and take some deep breaths. Imagine this beam of light coming from the center of the universe to your crown chakra, down through all your chakras, down to the earth. It is a healing light making you very comfortable.

And as human, we'll connect, starting from our heart line, clockwise around the globe, collecting those missing today on the call. And we connect our mind line counter-clockwise around the globe, so that, as humans, we are encircled as one, one mind, one soul.

And it is time to ask our Celestial Team from above: Machiventa Melchizedek, Sondjah, Asiah, Ashti or any other Celestial Beings to join. We include our friends from the Sea of Glass always looking at us and those from far away, our Stellar Friends who have a lot to share with us. We stay connected all together and with the universe in this state for three minutes.

### **Opening Prayer by Juan**

**Juan:** Beloved Father, whose Fragment dwells within us. Beloved Jesus, may your Spirit of Truth, be with us. And Mother Spirit, who provides our mind and the Holy Spirit. We are here gathered again, to acknowledge and thank you for all the good things you do for each one of us and for humanity.

We want to always thank you for that courage that you transfer to our hearts and our minds. We are not here to ask, but only to give thanks. Because all the souls that have departed due to these events, may they be in your safe keeping and may none of those souls be lost. Thank you.

**Jacques:** Thank you, Juan, for your prayer. Yes, we are here not to ask for, but to give, thank you for those words.

I don't know if Kona has a message from Celestial.

**Kona:** Yes, I perceive we have a message from Sondjah, so give me just a moment.

## Main Addresses with Sondjah

### *1. A New Era of Life Is Unfolding on Urantia*

**Sondjah:** Good morning, my Dear Friends. This is Sondjah with you from the Sea of Glass, bringing you great tidings and joy from our celebration here for the birthday of our beloved Christ Michael. Just know that we are celebrating in the universe his ascension into where we are from his earthly birth. But even now, we do celebrate the time that he shared with you on the planet. Not that there is birthing in our realm, but this is a celebration because he gave such great sacrifice on your planet. So, we do celebrate with you in this realm, the time that he spent with you.

So, greetings, again, from those of us who continue to celebrate in this moment. We, again, bring you great joy, glad tidings, and appreciation for the work that you continue to do on your magazine, and in reaching out to your friends and colleagues with the good news. Yes, this is a new sort of good news, that we are here, and there is a plan to help humanity, and we are quite ready to extend that message to those who would receive it.

So, **our radiating messages are extending into the planet to reach those who would receive it as an antenna in their spirit, seeking and searching for this good message.** And all that we have to offer them as far as (how) this new era, this new epic, this new dispensation is going. You will hear more about that at some point in the future.

Just know that we are quite excited for this change in the seasons that you are also experiencing. And even though there is destruction on the planet, as we have said before, this is a necessary thing to break down that which was to make room for the new. So, do not distress yourselves as you continue to watch these events unfold. Just pay attention to the new growth and the fresh and verdant soil that is going to be quite healthy once we have accomplished our goals in the cleansing of those areas that have been overused, overproduced and not taken care of for the health of the planet and the sustainability of humanity. **These things must happen in order for new life to flourish.**

**And you will be happy to know that the life carriers are being sent in with new life forms for this new era, this new epic.** You have seen that your planet is not sustaining certain life forms under the circumstances, so new life must be placed on the planet in order to inhabit this new world that is coming forth. As climate changes, the old planetary inhabitants, sentient beings, such as your animals and plants, cannot

all survive the changes during this period of time. A few will, of course, as they have done for quite a long period.

**But it is important that we introduce new life, and you will begin to see these more often as scientists make new discoveries, or you might have already noticed that this is already happening in many different areas.** They are making new discoveries, and they will continue to make new discoveries. As the life carriers seed new life into the planet. This should also bring you great joy to know that this is a never-ending cycle in what we do to interact with Urantia and maintain your eco-systems. You are not ever alone, not ever abandoned, not ever forgotten. So, we bring you this good news.

**Jacques:** Thank you, Sondjah, thank you very much. Yes, indeed, it is very good news to learn that life carriers are bringing new life forms and renew, probably, old life forms, because this planet is so beautiful. Thank you so much for this news that we will share with our readers.

**Bob:** It is good news.

## *2. Humanity Becoming: An Affirmation for Our Next Magazine Issue*

**Sondjah:** You are quite welcome, and **we are pleased also with the subject of your next issue, which is “Humanity Becoming”.** We thought you might like to have that affirmation to proceed forward with that. And if you ask us, we will also help you understand: **How humanity is becoming in this new era as opposed to what it was before.** So, this will be quite interesting and informative for you as well as all of your readers. Thank you so much for your time and attention to this, and we will be with you in progressing this new issue.

**Bob:** Can we ask questions?

**Sondjah:** Certainly, I'm happy to take questions from you today.

## *3. Restoring Balance in a Changing Planet*

**Bob:** I have a question. Are some of these new life forms going to help make our poor soil better?

**Sondjah:** Certainly, there will be new life forms in your soil, below the soil, as well as above the soil, in the air, in all aspects of your ecosystem, in order to create balance. You are definitely going to need this change because of the climate changes. And you will also see changes in your human life forms in order to manage the climate changes that you are witnessing now. It will be a gradual evolution in order to tolerate this. Those who cannot tolerate the changes, of course, will pass on to their ascension careers, but those who can adapt over time will do so quite rapidly. Thank you.

**Bob:** Thank you, Sondjah.

#### *4. Humanity Awakening to a New Era of Consciousness*

**Jacques:** Sondjah, this is Jacques, I have a question, because also you proposed to answer this question in your introduction: How “Humanity is Becoming” in this new era, as opposed to what it was before. You said, if you ask this question, I will answer, so I ask this question to you.

**Kona:** Could you state the question more clearly, please?

**Jacques:** Yes, the question is: How “Humanity is Becoming” in this new era, as opposed to what it was before. What will change for humanity with this new era?

**Sondjah:** Certainly, thank you for your extended question. So, consciousness is clearly changing so that it is more aware of the celestial or supernatural realm in a positive way. In the past, those who sometimes were connected into the celestial or supernatural realm, many would do so in a negative way.

Well, those forces have been removed, and so now the collective conscience has been cleared for their direct connection to paradise and the Paradise Father. So, this consciousness is being raised and people are awakening to the possibility of connecting with their higher selves in the Paradise realm as well as their Thought Adjusters and other Guides and Angelic forms that have been assigned to them. This is quite new for this generation to have this on an expansive scale instead of to a remote and select few who were evolved beyond their peers.

Humanity is evolving at a much faster rate, especially because the rebellious forces have been removed that were inhibiting humanity from doing this before. So, this is quite a big change for your planet. Additionally, there will be a drive to do good as opposed to evil, because that force has also been removed. There will still continue to be pockets of humans, mortals, who choose to do that, but they will be short-lived over time. This is not a change that will necessarily take place in the next 10 or 20 years, but you will see a progression away from those things which degrade humanity and degrade your planet. It has been so ordained. Thank you.

#### *5. The Growing Power of Positive Energy*

**Jacques:** Well, thank you so much for this information from Sondjah. Yeah, we are looking for that. We see, I see myself with my family and with my daughter, this negative energy affects us. But I agree, we don't have to concentrate on this energy, but concentrate on the new energy coming to this planet to elevate consciousness and to do good all around us. Thank you for this information, Sondjah.

**Bob:** I have another question.

**Jacques:** Yes, Bob please proceed.

**Bob:** Is there an after feeling of some of the negative energies? I mean, do some of these negative energies have a continuation somewhere within our world that they will affect us for some time.

**Sondjah:** So, consider negative energies quite like you might understand physics if you have a wave in one direction. Let's say you have a wave in one direction that is negative and then you have a larger wave that is positive. The negative energy cannot resist the positive force. And it will be absorbed in and contraindicated. So, it is not possible for these negative energies to survive over time, because the forces for good are so strong and increasing daily on your planet. Thank you.

**Bob:** What I gather them, the negative energies will be slowly dissipating.

**Jacques:** Thank you.

**Kona:** Yes, that is a correct assumption.

**Bob:** That's good news.

**Jacques:** Thank you, Sondjah, for answering our questions today. Thank you, Kona.

**Sondjah:** You are quite welcome, and I will depart from you now, just be filled with joy for this change in the atmosphere on your planet, and receive our good tidings and celebratory joy from this side of the veil. Thank you so much.

**Jacques:** Thank you, Sondjah. We receive your message into our hearts with deep gratitude, and we warmly welcome the greetings you bring from the Sea of Glass and from all those gathered there who are watching over us. But we are here full of hope.

One day we will look back on the work we have done here and recognize how it contributed to the evolution of a new era of this planet, as planned by Christ Michael and Mother Nebadonia. Thank you.

**Kona:** Hmm... hmm...

**Jacques:** Great news!

Group: Thank you Sondjah, thank you Kona.
