Session introduction by Kona

Kona: Hi. Good morning, good afternoon, good evening. I'm Kona Lisa Mahu with the Center for Planetary Management. It's September 10th, 2026. We have had our check-in across the globe. We're celebrating Bob's 80th birthday. So happy birthday again, Bob. I'm glad you're back with us. We have Jacques in France, Juan in Venezuela, Evan in the Philippines, I'm in New York, and Bob is in Texas. So now we head into our meditation. Jacques, this is up to you to get us settled and connected with each other and to spirit. Please take it away.

Centering moment as a Team by Jacques

Jacques: Thank you, Kona. Before we start the meditation, we need to quiet our mind and relax our body. Breath slowly in and out. It is time to connect with the universe, connect with this beautiful beam of light coming from the paradise down to your crown chakra, through all your chakras down to the earth. Receive this light and emit this light around you.

As you're connected with the universe, we need to be connected as human, started by our heart line, clockwise around the globe, collecting those who are missing today on the call. And we connect our mind line counter-clockwise around the globe. So, as human, we are encircled. We ask to connect with our Thought Adjuster as well as our Guardian Angels. We ask our Celestial Team from the planetary management to join us: Machiventa Melchizedek, Sondjah, Ashti and any other Melchizedeks or Celestials who want to join us.

We salute those on a Sea of Glass and our Stellar Friends. We stay silent for 3 minutes.

Opening Prayer by Bob

Bob: Father, we come before you this morning as a small team, requesting Your Spirit to be with us, and ask that also the Spirits of Christ Michael and Nebadonia are with us. We seek Your guidance and direction for our magazine and in our lives. We appreciate and thank You for all the many things you've done for us in the past. You've been so faithful and indulgent in helping us in the past, and we ask that you continue this in the future.

We asked to be able to have our hearts and minds open to information that you want us to share with others in a way that is helpful for them to grow and develop in life, and share with them in a way that they can have new information in their lives they hadn't had before about our planet: About the history of our planet, about processes of institutions and processes of individual living.

We thank you, Father, for what these things in the name of thy Son and the respectful, Christ Jesus. Amen.

Jacques: Thank you, Bob, for your prayer. And as we are encircuited and connected with the Celestial Administration and now we are ready to work for our magazine. But before that is there a message ready for us? Either from Kona or from Evan.

We know that the Celestial Administration is working hard to give us the Golden Rules to administrate this planet. This team has contributed to promulgate these rules. We do that with joy and gratitude for what has been given to us.

Kona: I perceive a message from Sondjah, but Evan, please go ahead if you have a message.

Main Addresses with Machiventa

Evan: Oh, okay. I think I need to have just a short message out there for Machiventa.

1. The Two-Way Path to Celestial Connection

Machiventa: Good day Team, it is your Planetary Manager Machiventa Melchizedek, reaching you from the Sea of Glass, and hearing all your different check-ins, which are really wonderful to know that you're here in Urantia doing your thing. Being with a life that is making you alive... keeping you up on your feet. And that is as it should be. You're working on spirit and yourselves and you are making great strides, my friends. So, do not worry about what is happening, what is occurring in your vicinity or in your environment.

You know, things that will pass away; they're not permanent situations. And no matter what happens to you or in your world, we have your backs. You are with God, you are with your Thought Adjuster, with your Angels, and we'll always be there to help you in your hour of need.

I come today to just give you a short note on finding out how Urantians [who] are ordinary people will approach Celestials. How does one come to know how to do that? This is where you can share yourself, your experiences, your knowledge... the way you have come to know us. The way you have come to understand what our relationship is. How you reach out to us, how we reach out to you, it is a two-way street. It is not only coming from you; it is not only coming from us. We need to come to that point where we meet in our minds, and in our centers.

First of all, you have your Thought Adjusters; you have your indwelling Spirits. Seek to find that a comfort zone where you can tell everyone that they too have their Indwelling Spirit that they can connect to. Because that is a primary source of their connection with us. And from there, they will know how.

So, it's not as easy, it's not as natural to connect with that God Source? Especially if one has not been practicing such a connection. And as you know, most, most often individuals who are lost, who are weary and tired from everything that they see and carry in this life, they are the first ones to connect, to look for the source, their salvation. But they still don't know how. They just ask for whatever they think they need to ask, and speak whatever there is in their minds. They need to know that we are there, we are there with them. And the First One that is there is within them, indwelling them from inside, keeping them, watching them. This is where it all starts.

Please help them know that we are here for everyone. No one is left out, or truly seeking their God source within. Thank you, and good day.

Jacques: Thank you, Machiventa, to give us some guidance on how to reach people who have no idea about the Celestial Administration. Thank you for that.

Kona, Do you have a message for Sondjah?

Kona: Thank you, Machiventa, thank you, Evan, for that message, because Machiventa certainly knows what is on our hearts and minds in developing this next issue, and again, as we've done before, that was one of my main questions in my mind for today: How do we reach this audience, and what does Machiventa want us to tell people?

So, Machiventa answered that without me having to ask it. It is always a blessing to be connected and encircled with our Celestial Team, because they know our questions before we verbalize, that's always quite astounding to me. So, let's see if Sondjah has an addition to this. One moment.

Main Addresses with Sondjah

2. Beyond the Comfort Zone: Reaching Those Who Influence Humanity

Sondjah: Good day, my Friends. This is Sondjah, also coming from the Sea of Glass to be with you. And as Machiventa has clearly expressed, it is our greatest desire to reach humanity in this moment, in this space and time, for their betterment and upliftment, especially amidst all of the chaos that is occurring on the planet.

This one will share with you some ideas that will come across as novel in ways to reach, and she may not even be aware of those ideas as we will drip them to her in the course of your meeting. We are discovering ways to reach individuals that we had not necessarily anticipated, and we do need your cooperation in this, so be prepared

for a viewing of things outside of your box, or things that you might not have considered before as a way to reach specific individuals and give them some encouragement.

Again, we have told you before to keep your mind open, to names or figures that may pop into your mind about reaching out to them, as your colleague, Martha, did in reaching out to Bill Gates recently in the email that she shared.

Note: Marthe send an email to Bill Gates in Sept, saying:

Dear Mr. Gates,

I would like to share with you a body of work by Daniel Raphael that I believe may offer a valuable perspective on some of the profound questions surrounding artificial intelligence and the future of humanity. ...

These are the kind of impactful moments that you may not be thinking about, but will be necessary for us to give every person on the planet the opportunity to know that we are here, and we are intricately involved in the machinations of what is happening all over the planet and in places that they are not even aware of. And though they may think that they are operating on their own, they are not aware that they are operating with the guidance of their Thought Adjusters and Guardians in spite of them thinking so much about themselves.

People such as Gates do think that they are in control of so much, but we are, in fact, directing their course. It would be better if they consulted with us in a more direct manner, for us to have some influence, positive influence in the work that they do. And so it is that we will try to reach these people that have tremendous influence on your planet.

They also need the message of Christ Michael and Mother Nebadonia's love, because for some, this is a concept that they do not entertain, considering their wealth and their influence already in such circles that seem to control planetary function. But the true planetary manager, as you know, is Machiventa, and Christ Michael is in full authority in his... rightful place at this time, and the adjudication is sufficient for us to be moving forward at this time with the plans of Christ Michael, the Correcting Time plans, and the plans to establish Monjoronson in the future.

So please keep an open mind into the things that we will drip into your consciousness about how to extend beyond what your comfort zone may be, invitations to this place, this meeting space and to your lovely magazine.

Thank you so much for your time and attention to this and always being present with us and welcoming us here. It is a great joy and a pleasure to be with you once again, and greetings from the large body of well-wishers on the Sea of Glass, who extend their love and greetings and protection even. Thank you so much.

Jacques: Thank you Sondjah, thank you, Kona.

Evan: Thank you, thank you so much, Sondjah and Kona.

Kona: Hmm. More things to ponder. Give me just a moment. That was kind of a powerful presence this morning. We have both Machiventa and Sondjah coursing through our wavelengths.
