Session introduction by Kona

Kona: Hi, good morning! I'm Kona Lisa Mahu with the Center for Planetary Management. It is September 14th, 2026. We have done our check-in and almost half our meeting because we are so excited about the news to share, but now it's time to

quiet our minds, our spirits, and get connected to our celestial team, and to each other in a very profound and significant way. Jacques, take it away.

Centering moment as a Team by Jacques

Jacques: Thank you, Kona and all my friends. Yeah. We need to quiet our mind and get relaxed on our seats. Breath in and out slowly.

Connect to this beam of light coming from the center of the universe to your crown chakra, down through all your chakras and down to the earth. It's healing light.

And as human, we connect together, started by our heart line clockwise, collecting those missing on the call today and collecting those who will connect one day to this group as well. Then we connect our mind line counter-clockwise around the globe. As human, we are encircuited as one mind, one heart and soul to work together for the plan of correction and to work for the next issue of our magazine.

And it is time to ask celestial administration from above to join: Machiventa Melchizedek, Sondjah, Asiah and any other Beings who want to join. We welcome also those on the Sea of Glass, always looking at us, and our Stellar Friends looking at us as well, so that we can bring for this planet the good news that Celestials are working in the back of the scene, as reported by Evan.

So, we stay silent for 3 minutes.

Opening Prayer by Juan

Juan: Beloved, Heavenly Father, again we give You thanks for allowing us to gather together in this session with our Friends, seekers of the light. We are always willing to place our will to Your will. Thank you for allowing us to be perfect, just as You are. Thank you, Father. Amen.

Jacques: Amen. Thank you, Juan for your prayer. I Hope that we will have a message today, because we have two TRs ready to receive messages from above; Kona and Evan.

Kona: Evan, do you perceive a message?

Evan: Yes, can you hold on for a second, please?

Kona: Sure, please.

Main Addresses with Monjoronson

1. From Personal Awakening to Planetary Cooperation

Evan: Okay, because Monjoronson would like to relay these this particular subject matter.

Monjoronson: Good day to you, my Team of Co-Creative individuals who have been hard at work, in their desk, in their offices, and in their lives so we can bring the Light to this world of spirit. There is something that I would like to relay to you and to the public because, this one is trying to introduce Me to the public. And that should serve as a good introduction of what my work here... is going to be...as your Magisterial Son. So, I will let her read what I gave her as notes. That is not yet in her notes, but I wanted to relay this to you, as this is the scope of what I'm trying to do.

Evan: So, let me just get that in. This is the mission, I think, that His mission centers on – pointing to and in the context of the Days of Light and Life.

Below is one of His transmissions.

Monjoronson: You could visualize the progression as follows:

- First, is the individual spiritual awakening,
- And then ethical personal living,
- And then, healthy families and communities,
- Followed by better social institutions,
- Then peaceful and cooperative nations and planetary consciousness and cooperation.

My mission as your Avonal Son is primarily for the progression of your planet and civilization, as we cooperate with the Celestials.

Thank you very much.

2. Preparing the Way for the Magisterial Mission

[Note below is another message received by Evan from Monjoronson]

Message received Sept. 14, 2026 5p.m. Manila

By T/R: Evan Mariano; From: Monjoronson

Monjoronson: REMEMBER: when I come for the set-up of the Magisterial Mission, it will happen after the evolution of the planet is on the way to Light and Life.....meaning the many issues and problematic trajectories or vectors will have been solved and have become sustainable.

IT IS THEN AND ONLY THEN WILL I ARRIVE!

This is because the conditions to my arrival are met, the preparations have been established and ongoing. The mission is relegated to the preparatory eras which is happening now ... this is already part of the mission ... the consolidation of everything that has to do with the way the universe is planned, thru the social aspects of living,

the moral and ethical transformation required and operating already in Urantia. These are needed to be on the ground so to speak.

Continue to master the relevant issues that we have often discussed, such as all the facets of your world and in relation to the sustaining values you have constantly learned about. Make these as the hallmarks of the human becoming ... each individual needs to accept and understand these concepts as they are material to your sustainability as a planet. Good day.

Jacques: Thank you, Evan, thank you, Monjoronson for that. Again, we see that individual is always the first stone of the foundation for this planet to move on, then the rest will progress naturally. Thank you for that.

Kona: Yes, thank you, Evan. Thank you, Monjoronson. And I'm so grateful because that follows the pathways that we have developed in the magazine. And we can use that as a continuation of our building blocks. And so, I think it's also an answer for you, Evan, in the work that you're doing with these families [in Philippines] in the Family Learning Center to start with the individual to become whole and healthy with the value system, and then just as Monjoronson, you know, has said, it progresses.

So, Jacques, I know you have diligently caught that, and you will, and we'll use that, you know, perhaps in our magazine and in our letter as a "quote" to help substantiate Humanity Becoming. We can use that quote on our homepage too. So, Juan, I know that you'll also capture that you know, as we build out our new issue of the magazine.

So, a lot of gratitude for that message. And I love not being the only TR here, because then I can facilitate without this mixture, you know, this imbalance. Evan can TR, Jacques and I can facilitate, and then there's no confusion about the message that comes through. I really appreciate the fact that now we have another TR here. So very good.
