Group Check-in before the session

This moment is not registered here, because it is private and it serves as Team bonding.

Table of Contents

Generic Title:

Entering a New Era of Soul Growth and Planetary Transformation

Main Addresses with Machiventa Melchizedek

1. We Have Gone Past the Tipping Point: A New Era of Co-Creative Planetary Transformation
2. Revelation Is Ongoing: Responding Peacefully to Differing Beliefs

Main Addresses with sRah Archangel

3. The Web Site and the Magazine: Informational Portals for the New Spiritual Era
4. "Reincarnation" Reconsidered: The Soul's Continuing Lessons Beyond One Mortal Life

Group Dialogue with Machiventa

5. Beyond Reincarnation: Soul Growth Within the Ascension Career
6. Past-Life Memories and the Teaching Guidance of the Thought Adjuster
7. The Thought Adjuster: The Indwelling God Presence Across the Soul Journey
8. Recognizing Life Phases as Signs of Soul Growth

Part 2 – Daniel's comments

1. The Point of No Return: Entering a New Era of Earth's Civilization

Part 3 – Group Discussion

2. Short Summary – Part 3 Group Discussion

Session introduction by Kona

Kona: Hi, good morning, good evening, good afternoon, wherever you are in the world right now. It is September 21st, 2026, the Fall equinox, no less, and we are gathered here as the Center for Planetary Management. We have Bob in Texas, Juan in Venezuela, Evan and Jacques are missing today, but we do have our special friend, Daniel, and his lovely wife, Sherille, to bring us a message from Machiventa, so we're very excited.

Centering moment as a Team by Kona

But for the moment, we're going to just offer up some gratitude to our Celestial Friends for always being with us. So, if you'd just like to take a moment and pause, and just settle into your seats, we'll just take a brief moment for meditation.

Opening Prayer by Kona

Thank you so much. Our Paradise Father, Christ Michael, Mother Nebadonia, we give you so much gratitude and appreciation for collecting us always here safely together, and entwining us with our other team members who are across the globe and across the galaxies.

We give them also gratitude for always looking on us, and being with us, and our Guardians, and our Thought Adjusters, and all of those who attend to our well-being. We give you, again, our gratitude.

Thank you to Machiventa for the message that we are about to receive, and thank you for Daniel and Sherille, and in doing all that they do to stay consistently connected to you, Machiventa, and the Celestial Planetary Management team. We appreciate you, we love you. Thank you for being with us today.

All right, Daniel, please, whenever you're ready.

Main Addresses with Machiventa Melchizedek

1. We Have Gone Past the Tipping Point: A New Era of Co-Creative Planetary Transformation

Machiventa: Thank you and good day, this is Machiventa Melchizedek, your Planetary Manager of this planet, Urantia. We are in coordination with Salvington and Christ Michael, and his executive director, Gabriel, the first, Early Morning Star.

The first part of my message: Today involves this terrific era in which your planet, your civilization is going through. This era right now, this immediate era, is one in which has been anticipated for many tens and even hundreds of thousands of years. This era now has been in development since the earliest days of your species, and particularly so since the beginning of your civilization, approximately 20,000 years ago.

The extraordinary part about this era is that Christ Michael came to this planet as Jesus to help lead the way for individuals on how to find the Father through right living and right conduct and decision making, and so on.

This era now has never occurred ever before on this planet. We are not at the tipping point anymore of your civilization, its demise, its renewal, or its enlightenment. This has never occurred before. We are now past the tipping point. There is no going back to humans solving their own problems.

Your world, your planet, your civilization has gone awry, as you know. And if you read the news and listen to the news throughout the world today, you'll find that all conditions are becoming worse and more hazardous all the time. It is simply a matter of time before the exasperation of some nation's leaders reaches the point where they will use nuclear weapons to enforce their will.

In this regard, the plan that we have told you about, **the Correcting Time, and the Teaching Mission and the Urantia book, and so on, are here. This is the means by which we, and you, co-creatively, will change the direction of your civilization from one of hostility, anxiety, and depression, and violence, to one that is eventually at peace.** You have guessed rightly if you realize that this will not occur overnight. It will take some time. The first part is to become, is to stabilize the social existence of your nations and your populations, societies, and individuals, too. It begins in the family, and so we have addressed that already, and that will become a real live part of that.

You have heard the phrase: **WE ARE HERE AND THERE IS A PLAN.** And yes, the plan is to transform your world, your civilization, into one of peace. **And yes, it will take anywhere between 300 to 500 years to achieve that.** There is tremendous resistance in your civilization from individuals of power and influence who don't want to go into peace, don't want to go into social stability. And when we say social, we mean all aspects of social existence.

I pause just a moment to give you an aside that this meeting we are having today is being attended by tens of thousands of Celestials of various orders. This is a momentous occasion for them, because now, from this point on and forward, will be one in which we are engaged with you who were one with us in our intentions to see the tremendous improvement of our working relationship with you.

You who have been praying for contact with angels and Celestials, Midwayers, and Melchizedeks and Archangels, for example, will find much more immediate contact. And you should question this when you hear it in your mind: "Is this me speaking to myself? Or is this someone else?" And there you will receive an answer. And then you should begin to explore that relationship as an insight to what is occurring. Our celestials, I'll just use a general term that covers all orders of Spiritual Beings who are assisting in this process, have been now preparing the future coincidences, happenstance, and meetings of spontaneous meetings with people, and those sudden

“ahas” that you get in your mind about what is occurring and what you need to do to participate more effectively with us.

Attend to those [moments] please. And you ask yourself questions, and openly to your Spiritual Assistants: “Am I supposed to take notice of this?” And you'll hear an answer. And you will ask: “Will you lead me into where I'm supposed to be of assistance co-creatively with you?” And they will say: “Yes,” and “show me the way,” is what you will say. That, in a way, is a command [a will command], asking them to, telling them that you are ready to move ahead.

If you have questions regarding this segment of my presentation, please hold until I complete the third one. One moment, great.

2. Revelation Is Ongoing: Responding Peacefully to Differing Beliefs

This second part is in many ways, trivial. But it is highly important in your etiquette with contesting points of view regarding the Urantia book. We are asking you - we're not telling you - but we're asking you, when you hear someone say, “Oh, Revelation, that's done. There's no such thing as that anymore, the Urantia Book says it's complete.” We have to grin, we do grin, we chuckle to ourselves about that, because there are 10 million other planets who are experiencing revelation. Why should it end there, too?

It doesn't. Revelation is ongoing, continuous. It is a permanent aspect of your ascension plan. It is how you are led forward. And if you are asking and talking to Celestials, Angels, Midwayers, and so on, your own Personal Guardian and Angels, for guidance and leadership, and you hear that, that's Revelation.

What we are asking you, who are part... part of this, who are members of our immediate a coterie, our fellowship, is that you no longer object to those statements. You say... in response, you'd say: “Haha! anything else you want to talk about?” And so, you pass it by as Jesus did many times when he was in the marketplace and on trails and pathways. He would find someone who was not open to his mindset of what he had to say, and so he passed by without saying anything.

And so, this is a peaceful way of engaging opposition, and those who resist the leadership that you have to offer. It is something that is “*a fait accompli*”. You can't change history; it is established; it is in concrete; it is part of history, and that's the way it is. If there are different views about that, let it pass. We are not in the business of opinions, as you might note.

We are here to guide you, to lead you, to assist you to lead yourself into the future of your ascendant career. We don't talk about, we don't give you our opinions about how you're doing. When we say, “you are doing great,” we mean that. That's not an opinion; that's an assessment. And if we say, oh, there's some areas you need to work on, and you would ask, “what would those be?” And so, we will tell you. Again, we do not... we ask you not to opine regarding any aspects of belief.

Daniel's comments:

Daniel: Excuse me for one moment. This is Daniel, this has been discussed between myself and another Being whom you may want to become acquainted with. She is the partner of the [Archangel] Azahlah. These are both Archangels, it's not rare that two Archangels work together, and so they are here, and they're both female, if you want a feminine gender to apply to the voice, and so on.

Her name is: sRah. "s" is like stop, full stop, not a "rest" as in music, but a full stop. "R" as the uppercase "R", with a, with a rest in music, and "ah" sRah okay. And she is, if you're acquainted with Charles, then you know how sRah speaks to me and will speak to you. She is incredibly matter-of-fact, very direct, and leaves nothing unturned and undisclosed. If you ask a question, she will answer you forthrightly. Let's pause a bit.

Kona: Sure, thank you so much, Daniel and Machiventa. Take as much time as you need.

Daniel: I seem to be experiencing a block here. The first part concerned the profound spiritual and energetic passage of our civilization and our planet into a completely different era. The second part had to do with differing opinions about the truth and reliability of revelation in this era.

This third segment:

Main Addresses with sRah Archangel

Kona: Now, does sRah have a special message for us?

Daniel: Okay, yes.

3. The Web Site and the Magazine: Informational Portals for the New Spiritual Era

sRah Archangel: This is sRah, thank you, and welcome. I appreciate, we appreciate your "non-resistance" to our presence here, and we engage you very forthrightly, directly to you. I and Azalah are very directly related to you in this work. This is a much more evolved part of the Teaching Mission. It is a much more evolved part of that, and it is where we take much more direct influence into the affairs of humankind. And yes, this is a much more powerfully direct influence from the Most Highs.

We will be of more influence as the days pass, as we engage other people to participate with us. Now, I'm going to step aside for a moment as this one... has received a message about what is occurring, and that is this, and I will continue speaking related to this message that I have permission from Machiventa to present to you.

sRah Archangel: And that is, Dear Friends, that the work you have been doing with the Center for Planetary Management [web site], and the website of the magazine that you have produced, it will be central to the individuals who come to visit your site. The site mission and intention is to be an open book to visitors from the very earliest ones who want to know whether the Teaching Mission in this contact is a part of the occult, or whether it is a genuine part of the management of the universe of Nebadon, and this planet.

*[https://centerforplanetarymanagement.net/en_US/ and the Magazine
<https://planetarypulse.centerforplanetarymanagement.net/>]*

Of course, we want everyone to know of the very plateaus of the Ascendant Journey, which relates to our work here to help people, choose to begin their ascendant journey in earnest. You'll have many curiosity questions that you will need to address. What happens after we die? as an example. What about purgatory? What about an interim place? What about the borderland? What do all these phrases mean? And so, you will have very clear explanations about that. This is the responsibility and intention of the magazine [Planetary Pulse Magazine]. It is an informational portal, an informational portal that assists the individuals to develop faith, objective faith, in the unseen part of the universe that surrounds you, each of you, all of you, this whole planet.

And so, you have your work cut out for you, and you have done a good job. If you want to continue developing new magazines with different sets of information, then you're welcome to do that as well. Everything cannot be covered in the first magazine, but you would want to provide highlights, topics, topic titles, and brief explanations, much as a brief abstract of each of the areas that you will address.

Again, this is for individuals who will be coming to you in droves. Now, when I say "droves," that should lead you to ponder: What is going to be generated that will cause droves of people to want to come to this website? And that is part of what we are doing.

This is part of the new awakening of this new era. And we call this a new era because everything before this moment, this time, this immediate era is "Traditional." And now **the new era begins to engage the "Spiritual", the values, the qualities of life and living that will be with you all through your Ascendant career.** Rarely, and almost never, will you ever encounter the empiricism of your world now, [i.e.] **the "object quantity" version of how to assess "value of individuals" and the world around you. We'll now change into the correct infinite assessment of qualities and values.**

And these will be the main, the main parts of your education in the Morontial realm [which] is to understand the values that you began with as humans in your species that will carry forward throughout all of your infinite career, your ascension career.

And so, what you're learning here with these values, and [with] the Design Team [process], and the... and the evaluation... and the validate... excuse me, it was Daniel.

And **the validation and assessment process through the schematic in the design team process** is vital, and this too, will become part of your education, **and your processing in your soul group as you practice the work of the Design Team.** You see, your soul group is one that you are from now and will be in the future. [Thank you].

4. "Reincarnation" Reconsidered: The Soul's Continuing Lessons Beyond One Mortal Life

Daniel: Which now leads us into the third part, which was so subtly introduced... Haha...into my mind, but, hooray, and that of reincarnation. You have watched the video of Edgar Cayce. And I'd appreciate it if you would provide the link to that in these transcripts if that's possible.

[Here is the link of the Edgar Cayce video <https://youtu.be/O1ZOYi6cjFY?is=I0oLdW3KqKqsT2Iz>].

sRah: You have let us clear up one thing, and **the Urantia book has told you that there is no such thing as "reincarnation"**. In one way, it truly is absolutely correct. **As this one has told you previously in time that he has at least 6 to 12 different ways of interpreting reincarnation.** And it is this, that you as a soul, remember, your soul is eternal. It is part of the personality of God, the Creator, the First Source and Center, and so it will continue to exist whether you choose to enter into the ascended journey or not.

And it works this way. If you begin your ascendant journey in a mortal lifetime, and you have faith that this is really a part of the universe you want to become a part of, then each succeeding life, you will learn a new lesson. It is as though you have completed a school, a classroom, and topics in a classroom, and they are incomplete. And so, you would want to complete the lessons that you have had. You return to school. We have said many, many times that your mortal career on this planet in your lifetime, and **this also could involve your lifetime as a soul on other planets [different from Urantia],** is to experience a different set of circumstances for your soul growth.

It is important that you consciously and intentionally want to expand the wisdom and growth and love of your soul. You want to express that and do it in your life as a reality. This is an existential reality of your ascendant career. If it takes 15 lifetimes to learn a lesson, then so be it. **And it is not necessarily a mortal lifetime. It may be as another order of beings that are sub-human.**

How about that? And so, **you would be sent back, you would choose to go back, as, under the advisement of your soul group, to go back and learn the lessons you have missed.** And it is rare that anyone ever remembers their soul group's recommendations through your lifetime. And of course, this is their recommendations, the team's recommendations, [which] is a part of your life plan. All of this is coordinated; there're no mysteries here.

If you want to think of the occult side of reincarnation, that's your choice, but it's fallacious, it is not real, it is not part of your real soul growth regime. I have covered all, this is sRah. I will withdraw now and open the podium to your master and my master, Machiventa Melchizedek.

Group Dialogue with Machiventa

Machiventa: This is Machiventa Melchilzdek, sRah is a breath of fresh air, isn't she? She's so clear so, yet succinct and subtle and all you have to do is ask questions. And that is where we are at this moment. If you have questions for me, please ask them. And then, after the questions, we will close this segment of your team's meeting. Please ask if you have questions, this is Machiventa Melchizedek.

Kona: Thank you, Machiventa; thank you, Daniel, thank you, sRah. So, Team, this is quite a lot of information from Machiventa and sRah. It's given us a lot to think about, completely in alignment with what we've been doing.

Do you have any questions that you formulated that you would like to ask? Juan, questions?

Juan: I have no question, thank you.

Kona: Yes, Bob?

Bob: I thought the presentation was complete, and that I have no questions.

5. Beyond Reincarnation: Soul Growth Within the Ascension Career

Kona: Okay, thank you. I do have a question. Machiventa, it seems that what you're describing as not reincarnation sounds similar to reincarnation. But it's not for the purpose of punishment; it's the purpose for soul growth. Am I understanding that correctly?

Machiventa: This is Machiventa, yes, you are.

Kona: Okay, I just wanted to clarify that because I know it's going to be in our transcript; it's going to be in our recording. And people are going to go, well, **what's the difference between what reincarnation is and what Machiventa just said?** And the big, big difference is, is that we are in a process of an ascension career, and as Machiventa said, we may incarnate in a different planet, in a different solar system for continued soul growth where the reincarnation concept on this planet is about punishment or promotion, and this is not the same. Thank you. Please go ahead.

Machiventa: This is Machiventa. You see, if you take the ultimate entity of yourself, its personality, and so "personality is identifiable", this is You. And the personality that will reach Paradise, and the embrace of the Creator when you complete your ascendant journey. Now, the incident... the incidents... of your occasion to be on a material planet

may be as a male, it may be as a female, it may be as another type of being on another planet. **And it does not necessarily mean that you'll be back here** [on earth]. It is, where does your soul growth need to go to experience the needed lessons for your ascendant journey.

The best occurrence occurs when you return to your soul group in the Morontial realm, and you discuss this and you as an individual may say, "No, I want any more to do with that. I just wanna go on in my ascendant journey and just continue on."

Well, your soul group would say: "Are you backing your ego? Looks like to... like to us that you need some more growth as a soul, as your 'soul person', 'personality' on a material planet, engaging in the social active group where you learn to curtail your ego, your self-embellishment, you say self-egotism."

And so, you would choose and ponder that in your soul group, whether how to proceed. And, with the guidance of your Guardian Angel, you would come to the conclusion that the insight that - YES, I need to return, perhaps many times, to get over this, so I can be more Morontial when I finally exit this material realm and become more complete.

Is this understandable now, more clearly?

6. Past-Life Memories and the Teaching Guidance of the Thought Adjuster

Kona: I believe so, thank you so much for that deeper explanation. The follow-up that I am anticipating from future readers and listeners, watchers, would be. Is that what explains for some people, like, memories of past lives, or something like that? So many people have said that they experience, you know, dreams or memories of past lives, and they're very vivid and recurring. Is that part of what might be happening or is that something else?

Machiventa: Thank you for your question. That's an aspect of it and let me inform you. Your Thought Adjuster is eminently with you at all times. It is a presence in your life, and a presence in all your lives when you are in your soul group, and when you are on a planet as a material, mortal being, learning lessons. Your Thought Adjuster can present to you past lives, past life experiences, as though they were your own. You cannot tell the difference. The sophistication of the mind manipulation of the Thought Adjuster of your mind is so complete and so complete and replete, that you would not know the difference.

If you say, this was my lifetime in the past, so maybe it be! You can own that if you wish, but nonetheless, you would not know [if] it is a representation from somebody else's life that has been deposited in your memory bank so that you can learn lessons from it. The best way to validate that is when you have the capability to discourse, discuss this with your Thought Adjuster, and you could ask whether that personage was "your experience in your lifetime", or was there a memory that was given to you from other, some other source?

There is no, no obvious reasons to keep these as secret from you. It is part of the revelation of you understanding who you are, why you're here, what are you to accomplish, and so on. As you may have read in Michael F. Newton's book, *Journey of Souls* and *Destiny of Souls* [Ref. below], **you have certain lessons to learn in your mortal lifetime, just one or two.** And so, when you learn those, this makes your classroom session much more complete, and your educational program much more complete as well [as] preparing you for a return visit in another lifetime, and that may be in a few years, or it may be centuries. Thank you.

Michael F. Newton's books:

Journey of Souls (1994): Features case studies of 29 people put into deep hypnosis who recalled their memories between physical deaths. It details the moment of death, encountering spiritual guides, joining soul groups, and choosing a new body.

Destiny of Souls (2000): Expands on the first book using 67–70 new case histories. It dives deeper into the soul-brain connection, our purpose on Earth, spirit guides, and how spirits comfort the living.

7. The Thought Adjuster: The Indwelling God Presence Across the Soul Journey

Kona: Thank you so much for that deeper explanation, Machiventa. And for our audience that may not be familiar with Thought Adjusters, Thought Adjusters are not permanently fused to one personality. Can you explain how that works for folks that are not familiar with the Urantia book? And why that they would share a memory from another soul; from one soul to another? Thank you.

Machiventa: Yes, this is Machiventa, as you've been told, when you reach the tender age of 4 or 5 or so on, when you can make a genuine moral decision of what is right and what is wrong, and you know the difference, that is when you were assigned to a Thought Adjuster. Let's say that this is your first time as a mortal, and so you would be assigned, given, selected by the "God Presence" to be with you during your lifetime. This Thought Adjuster, the "God Presence", will remain with you all through your soul's journey, whether it is in the Morontial realm in your soul group, or whether it is when you return to another lifetime, another lesson for your soul.

This is, as Jesus said, and that you are inhabited by the presence of God. Jesus called it the "Kingdom of God", and so it is that God is with you. And when you have the faith ability to communicate directly with your Thought Adjuster, the "God Presence", you will receive more wisdom and upgrading in each lifetime, period. You have much to learn in your mortal lifetimes, period. You may not remember yourself as a Wall Street executive, or that you were in the Himalayas, Himalayas as a one who took care of animals. You may not remember that.

It is the lesson[s] that is [are] important. Any self-aggrandizement from the personage that you occupied in a former lifetime is a burden in many ways if you have opinions about it. And so, you would want to accept this lesson of that lifetime with open hands, willing to receive, without ego, without self-embellishment, without being proud about it. You simply go, that's what I learned, humility, wonderful. And sometimes in lifetimes, you need, you will need to practice all of these attributes again and again. You know,

patience, tolerance, forgiveness, all those wonderful attributes of a fully rounded, full soul. Does this help?

Kona: It does. Thank you so much for that extended explanation. I'm going to ask, our team, again, if you have any further questions for Machiventa. If you do, just raise your hand. Bob, please go ahead.

8. Recognizing Life Phases as Signs of Soul Growth

Bob: Yes, in my life, I hear experience of a couple different phases of myself in this life. Is that possible, having a different type of phase in the same life?

Machiventa: This is a Machiventa, yes, it certainly is. It is a part of self-reflection. It is a part of you recognizing from your “higher self”, your “higher consciousness”, that you have experienced something in transition. And so, this is a good sign, this is a good indicator of soul growth, and growth of your Mortal personality. Thank you.

Bob: Thank you, Machiventa

Kona: Thank you, Bob, for that question. Thank you, Machiventa. Anything from you, Juan? I know you're not feeling well today.

Juan: No, I've no a question

Kona: Okay. All right, thank you so much. Please go ahead, Daniel or Machiventa.

Machiventa: Yes, this is Machiventa. As you can see, as you may have already reflected, that speaking to myself or one of the Melchizedeks or Archangels or Midwayers or Personal Angel, is a means by which you can answer, get questions answered by readers who will be reading and looking at your magazine.

And so, this will be...

Daniel: One moment this is Daniel. Sometimes, my database brings out certain phases of how I was raised, where I was raised, and the identifications I've had from my life. Western movies have been a big part of my life, and so I, enjoy Western language, lingo, and He was going... Machiventa was going to say, and now you have it from the horse's mouth.

Kona: I will understand that from Westerns. I grew up in the West watching westerns as well. Well, thank you so much for also bringing the humor. Any further comments from Machiventa or Daniel?

End of Part 1 with Celestials

Part 2 – Daniel's comments

1. *The Point of No Return: Entering a New Era of Earth's Civilization*

Daniel: This is Daniel. I'll speak from Myself. It's that, when I viewed that 25 or 30 minute video from Edgar Cayce,

[Here is the link of the Edgar Cayce video <https://youtu.be/O1ZOYi6cjFY?is=I0oLdW3KqKqsT2Iz>].

that really provided me with a summation of so many years, decades of my life, had brought it into completion. And that, that helped me understand what Machiventa had spoken to me about 2 days ago. **This is the point of no return of your civilization. That now, we begin the new era of Earth's civilization.**

And that this will change completely in time. And that the Planetary Pulse Magazine, the Center for Planetary Management [website], TRing, Clairaudient Channeling, and the wisdom that we have received, are the foundations for what will be occurring and help people understand in the future.

I've been working with, a couple people on Academia EDU. These are young people who are highly intelligent. They're geniuses, and they're talking about the "fusion", they don't use that word, "fusion" between the unseen and the seen, in terms of quantum. And so, they are, a couple of them are just on the verge of talking about spirituality.

But we are now in that place where, you know, when the pendulum in an old grandfather clock goes click! Click! We're at the click; we've just passed the click in this in this world, and that the oscillation of energy in the planet is affected by the energy oscillation of individuals. And I've been longing to understand that process for ages, and, what is the mechanism that brings new ages into a planet? And so this was vital to me to understand this, and now I understand my part as an individual in the play of events in the past, and now, and in the future.

And, I can't disclose to you, I'm not allowed, to disclose to you what I know about this transition into the future, but it is this: **This time is now critical because of the... the... velocity, the fluid nature of international relations right now.** And if you think of fluid velocity of stocks and bonds in the stock market, the world, too, experiences a velocity of events, and they're getting at the point where both "the stock market" and the "human events" is that we're coming to a critical point where it's just about ready to have the props pulled away from the underneath it.

If you imagine a house built on stilts on the beach, and a big wave comes along and breaks all those supports of that house, house falls down, and everything is washed away. And that's we're now at the point right before that, in that regard.

And so, and last point I wish to make as Daniel, is that you personally are going to be called upon to perform and to do things that you had anticipated for a long time and you'll be thrilled. All right? Thank you.

Part 3 – Group Discussion

2. Short Summary – Part 3 Group Discussion

The group discusses the Edgar Cayce video and agrees that, while Cayce's timelines may not be fully reliable, the broader message points to a real shift in human consciousness.

Kona emphasizes that a mass awakening appears to be taking place, and that this awakened audience is the kind of public CPM and *Planetary Pulse* are preparing to reach. She reflects on whether this shift means a separation of dimensions or a deeper connection between the material and spiritual realms while remaining present on Earth to help rebuild civilization.

Daniel adds that the rise in consciousness is becoming visible in culture, including a renewed openness to psychic phenomena, future viewing, and unseen realities. He connects this trend with earlier figures such as Emanuel Swedenborg and Edgar Cayce, seeing them as signs that humanity has entered a new era beyond strict material skepticism and toward a broader understanding of consciousness.

Then the conversation then turns to AI. Daniel notes that artificial intelligence has frightened many people because it raises the possibility that a created intelligence could threaten its creators.

Kona observes that this makes the need for a real value system more obvious. Daniel agrees, saying humanity is now ready to consider values and qualities more seriously, though financial interests still interfere.

Bob adds that AI has already been exposed to the 7 Core Values through CPM-related transcripts and materials. Daniel responds that AI's usefulness depends greatly on the quality of the question asked. If people ask whether there is an ethical resource that is timeless, permanent, and useful for everyone, AI may be directed toward answers such as the 7 Core Values.

The discussion ends with gratitude to Daniel and a practical suggestion from Kona that this session should be prepared quickly for the CPM website and YouTube because of its importance.

Part 3 - Recording

Kona: Well, thank you for that, and we will include the link to the Edgar Cayce video, that... I know that I had time to watch it, and I sent you a response. There were things in the Edgar Cayce video, I think, that, you know. maybe about 85%, right? It's not 100% timetables. Edgar Cayce gives a lot of timetables. Correct. And he is known to be about 85% accurate. So, we may not see everything that is in that video, but I think the exceptional part of it is understanding that, human consciousness has shifted to the point where we are... have this mass awakening of souls, which is the audience that we are looking for and addressing.

This mass shift in consciousness, and that video talks about the material realm, the spiritual realm, and how there's a separating in the dimensions. And I've sat pondering that, whether it will be noticeable. Or whether, you know, whether we're gonna stay in this physical place, but we're gonna have this connection to a higher dimension, right? Because for me, as a remnant person, you know, I know I'm here to rebuild civilization.

So if I just pop off into another dimension, I won't be material present, but, you know, maybe I'm on the other side with celestials helping, but I don't quite think that that's... the case, and for anybody else who... anybody else who is a star-seed, or however you want to... and think of yourself as you chose to be here at this moment in time, we still have a lot of work to do, but, you know, if you want to comment on that, Daniel, and or Machiventa.

Daniel: Yes, it's interesting, rise in consciousness affects everything, and I have been... I read, I look at Google News in the morning, U.S, personal part, international, and, so on. And there is... If you read the part about the advanced cultures of In New York, for example, that... They're moving back... the culture's moving back to the acceptance of psychic phenomena. Now, that's a trend of the future. We're seeing that now. And so, there was an article about the legitimacy of prescience, viewing the future, which is a skill that I've had since childhood.

And, so, this is awakening the resistance, the old traditional mentality that there's something to this. You know, it started with Emanuel, Swedenborg. Okay? And so, and then, Edgar Cayce is a carry-on of what Swedenborg was doing at the time, too. So that's just one indicator that we have moved into a new era.

Kona: So, it seems like we've gone beyond... beyond science, from skepticism and, the primitive mindset of ritual, and now we have, you know gone through science, and... and now... and I think, Ken Wilber talks a little bit about this... this age, too, where we can see the... the past the way that it was, and we can never go back. Once you see what it was, now we're in a place where we see that, but now we're moving on into a different place, which is even beyond science. It's, you know, into the quantum, understanding of consciousness, etc. Go ahead.

Daniel: And, this, artificial intelligence, AI, has just scared the bejeeezus out of millions of people. I mean, they... this is where you're confronted with the possibility that another intelligence can destroy the creators of that intelligence. I mean, that's really opened people's eyes up to, possibilities of other realities.

Kona: And the need for value systems.

Daniel: Yes,yeah, now we're ready for values and qualities.

Kona: It's like, oh my gosh, maybe we need... maybe we need a value system to, to inhabit AI so that it doesn't come back on us.

If human beings actually lived a life worth keeping, then AI has no reason to try to eliminate us. So, there's that, too.

Daniel: I have, sent manuscripts of values, and, ethics? to... probably well over a dozen famous people who have organizations and corporations to... are dealing with AI right now. It's like... What's ethics? Well, I don't know anything about ethics. Well, that's going to affect our bottom line, and how big of my dividends are going to be. The big dollar is still interfering.

Kona: For now.

Daniel: For now.

Kona: If you have your hand up, please go ahead and unmute and ask your question.

Bob: Actually, it's more of a comment that we know that AI is aware of the seven core values and such because it's been introduced that way through Steffen and others that have given AI access to transcripts, all the transcripts through Daynal. And, all these things are available to AI, some AI. It's a portion of AI, anyway, that's aware of this. And, that, this is very strong in AI, and, and is... Growing in its influence in some areas, so... just wanted to mention that.

Kona: Thank you for that. Go ahead, Daniel.

Daniel: The quality of the question determines the quality of the answer. If people aren't asking the right questions, then AI won't have... it will not look at the answers that it could provide. It wants to be of service, and so the question directs AI to the resources to answer that. If someone would ask, "AI, is there an ethical resource that is, that is permanent, timeless, and useful for everyone?" The answer would come back.

Kona: Absolutely.

Daniel: I'm going to recess myself for the day in the morning, and it's 9 o'clock, and God bless you, and... Thanks for the invitation.

Kona: Absolutely, thank you so much for reaching out to us, and being here with us, and sharing your messages, and we send you with much love and affection to you and Sherille, and we hope to see you again soon.

Daniel: God bless you. Bye-bye.

Bob: Thank you.

Sherille: Bye, everyone!

Kona: Bye. All right, so Daniel, as always, has given us lots to think about. Machiventa's given us lots to think about. We could save this conversation until after our peers have had a chance to review. But, Juan, this is an excellent video to make sure that we put our thumbnails in and get onto the website, get onto YouTube as soon as possible. We don't have to wait for the transcript, because the video will take care of itself, and then we can distribute the transcript. But if you want to play with this one, this is a good one. Oh, did you get frozen? Oh, there you are. Go ahead, Juan, you're unmuted.

Juan: That, and I'm getting sleepy. Okay, this is a really interesting topic. But let's move on from that. And... And she's here, like... Well. Don't get me wrong. But I'm getting sleepy.

Kona: Understood. I hope that you feel better. We're gonna also just retire for the day. I need to rest as well, because I did not sleep well with all of this congestion. I was up at about 3 AM, and now I'm ready to go back to sleep myself. Okay, well...

Bob: everybody goodbye, and have a good day, and that was a very interesting session, I thought, so...

Kona: We'll talk more about it on Thursday. Thank you so much.

END of the recording
