Session introduction by Kona

Kona: Hi, friends! It is Kona Lisa Mahu. I'm here with the Center for Planetary Management. It is September 28th, 2026. I'm here with Bob in Texas, Evan in the Philippines, and Juan in Venezuela. Jacques is on vacation, and will be back later this week, and we send our greetings to all of our other teammates scattered across the world who are not able to join because of this time difference and their commitments. But we do extend our greetings and our well wishes to them as well.

Centering moment as a Team by Jacques

Kona: We have done a long, extended check-in, and now we are headed into our meditation. So, this is the time that we just set aside what's happening in the world, set aside what's happening in our lives, take some deep breaths, just sit back in our chairs. And just let all of that go to make room for our Celestial Planetary Management Team to connect, potentially to a message from a Celestial who has a gift for us. Evan is our TR today since I'm facilitating, and we don't try to mix up those roles. And so now, everyone just take a big, deep breath. Relax in your chair and just let the brain calm.

Take another great big deep breath, relax even more. And notice how your body feels as you sit in the chair. Check for stress points, tight shoulders or arms. Tight face muscles… Take another deep breath. Our stillness practice is essential. For connecting with each other, in a calm… not so cognitive way.

Now connect not just with each other, but the celestials on the other side who may have a message. It's like clearing away all of the dust, or… making sure that our optical fiber wires are not hampered. Whatever, however you visualize your connection, stillness provides a space to change our vibration and tune into what else is happening in the world outside of our current dimension.

Another big, deep breath. And we'll pause for 3 minutes before we have a prayer from Bob.

Opening Prayer by Bob

Bob: Dear Heavenly Father, we thank you for this opportunity to come together as a small group today. We pray that your blessings be upon us, they lead us and guide us into those things you want us to accomplish in this group to make a magazine accessible to many. And help that magazine be able to transform the lives of people that read it, be able to make an impact in their thinking and the way they do things.

Father, we appreciate all the many things you have done for us in the past and all many things you continually do for us. We're grateful for these things and appreciate those many things that you have aided us with daily that we don't even realize that you're helping us with, but that you do. And Father, may we have also the guidance and direction of Michael and Nebadonia, as well as Machiventa and others who are diligently working to transform this earth into a better place, and may we appreciate all the work that they do, and thank them. Because, their work is so important to us as well.

We ask that each and every one of us in this group have a close spiritual relationship with you, with your Sons and Daughters, as they strive to make life better on this planet, and strive to make our individual lives more productive and worthwhile. We say these things in the name of Thy Son, Christ Michael, Christ Jesus. Amen.

Kona: Amen. Thank you, Bob. Evan, do you perceive a message for us today?

Evan: I'll try to. I think I have one from Monjoronson.

Main Addresses with Monjoronson

1. Awakening Humanity to Its Divine Source and Purpose

Monjoronson: Good evening, my Friends, this is Monjoronson. I'm joining the circuit here. I [know that you] have a lot of things on your mind regarding what Machiventa said the other day regarding the many things that are happening in the planet that will bring about a new era or dispensation.

These are things that are needed to be occurring, as things are not working out very well in many areas of the world. There were too many trouble spots, and too many people in error. [Those] divergent views are getting more convoluted, but that is a way of the dark ones. These are works of people who do not have any connection to their Fragment, to their God's Part Within them. They do not think that they need to connect with their Source. So, they go… go on through their lives, daily thinking that they have the best minds and the best education, and the best backgrounds to make decisions for everyone else.

So, this is the real trouble of the world, there is no awareness of their source, no awareness that they are little children who belong to the Father. We need to be looking up to the father; we need to be always in equal status with each other. This is not evident in your world as you can see. And your work gives a lot of hope to all the people who are thinking: Why is the world so troubled? Why is the world so dark and gruesome. And so many things that are happening that are not “Godlike”.

So, this is where you come in to bring about consciousness of: What it is you are here for? What is your existence is for? Why you have been born into this world for? The first thing about your magazine is to be, is to make people aware of who they are. And that is, in itself, a very big question mark because people really don't know, or maybe don't even care.

But this is their… this is their sole purpose in life, that they have a purpose. That they are belonging to the same universe that is created by their First Source and Center the Universal Father. And so, there is very little hope in the world. And the tipping point

is almost there. That tipping point will be the way that will show many people how things must change, how things will change.

These are the plans of Christ, Michael, and we are here to help you succeed in those plans and you are our Co-Workers. You will see the bringing of light to everyone. It's a great big task, responsibility, that we can help each other with and that we will continue to do so in the future.

Thank you and we wish you well, and we wish you all the best, and we love you. Good day.

Kona: Thank you, Evan. Thank you, Monjoronson.

Bob: Great message.

Kona: Yes, encouraging messages to carry us forward, because the news certainly does not do that for us. So, thank you so much, Evan, for TRing for us. Any reflections on Monjoronson's message to us today, from any of you?

Group Dialogue & Discussion with Monjoronson

1. Your Role: Help People Awaken to the God Within

Bob: So, do you have an outline in… let's think want you want us to accomplish in our magazine and what we can do to help other people grow and develop. Could you address that, please?

Kona: Well, Monjoronson did just give us one thing I was going to mention, Bob, which is to tell people who they are, which I found very interesting. We haven't heard that, but is Monjoronson is still with us? Evan, please go ahead.

Monjoronson: Yes. Thank you for the question. Yes, this is the primary purpose of my coming here: To make people aware. This is the opening salvo if you will. Why are people sleeping? Why are they not aware, or they're not God conscious, or they don't find that God is important in their lives. What is the relevance of God in their lives?

This is what you must make them see. Because without God nothing will progress. They may think they have some progress in a material sense; that is not real progress. Because they forget their divinity, that they have a right to Divinity, and that they will have to find God within themselves. Because without being or knowing, or being aware of this nature of theirs, they will be lost in this world. They will not be able to grow in the next life, nor will they even want to continue as you speak about: their careers, their spiritual careers, their ascension careers.

This is what is very important, that people will recognize that they are going somewhere [after death] and this is not the end of it all. This world is all temporary, it

is not a permanent thing. They will lose their lives one time, one day, and they know they will never take it back again. So, all their decisions here, now, are very important.

Make them see that light, how important life is, what it is all about, what are the values that they have to know? These are not silly things that you are trying to teach them. These are important things in life that no one ever really bothered to talk to them about. Because it was never fully understood, because it is very difficult to explain to people: What God really is? And they have a very different perception of a God that is fearful, where He is somewhere there in in the “cloud”. Now, He [God] is inside of you, has always been inside of you. This is where you must touch Him, speak with Him, connect with Him. This is where it is important for you to bring that up to a lot of people to every individual. Thank you.

Bob: Thank you, Monjoronson, that was good.

Kona: Thank you so much, Evan. Thank you, Monjoronson. I appreciate that. So that gives us a lot of, a lot more to think about with regards to this next issue on “Humanity Becoming” - is not just becoming, but we are to begin with this and you know, where we come from. And I think, you know, that's extremely important.
