Session introduction by Kona

Kona 16:28:48

Hi, good day my name is Kona Lisa Mahu. I'm with the Center for Planetary Management. It is October 19th, 2026. We've had our check-in around the globe, a fruitful discussion about agriculture that we'll get back into at another time. And we are ready to go into our meditation. So, Jacques is here in France, Juan in Venezuela, Evan in the Philippines, I'm in New York, and Bob is taking care of family business, so we'll see him when he gets back on Thursday.

So, Jacques, please just take us into that meditation so we can get encircuited, calm our minds, our hearts and connect with spirit. Thank you, take it away, Jacques.

Centering moment as a Team by Jacques

Jacques 16:29:34

Okay. So, yeah, we had a lot of discussion on agriculture, yeah. But we need to also to have “foods for soul”. So, calm and relax your body and your mind. Now we have to connect to the universe, to this beautiful beam of light coming from the center of the paradise called “Divine Love”, “Divine light” coming to our crown chakra, going through

all our chakras, down to the earth. So that we are connected with the universe to heal our body and heal our mind so that we can continue our journey, for many, many years to help Christ Michael with the Correcting Time plan.

And as human, we need to be connected through our heart line clockwise around the globe, and we collect all those members of the team who are not with us today because they are busy with other stuff. And we connect our mind line counter-clockwise around the globe because we are situated all around the globe.

Now that we are encircuited as human, we can ask our Celestial Teachers to join us. Starting by the Planetary Management Team: Machiventa Melchizedek, Sondjah, Asiah, Ashti, and any other Melchizedek who want to join.

We always consider our Brothers and Sisters so close to us, the Midwayers we know that they are here. There are Beings located on the Sea of Glass, looking at us for all those meetings. We salute them today as well as our Stellar Friends who are giving to some groups around the globe very very important messages.

We stay silent for 3 minutes now.

Opening Prayer by Juan

Juan 16:34:48

Beloved, Heavenly Father, beloved Divine Parents we give you thanks for this opportunity to gather again to be able to raise awareness and see certain events that happen in the world, and ask you for the solutions always respecting the free will of all those people who are suffering at this moment from illnesses, from persecution. They are deprived of liberty. They need to open their spirit. They need spiritual peace, Father. We ask that these difficulties be resolved little by little. May our prayer bring comfort, and may their suffering lessen with each passing day. Thank you, Father.

Jacques 16:36:05

Thank you, Juan, for your prayer. In the face of so much suffering on Earth, we need to work with the Celestial Team to develop practical recommendations and offer effective solutions as soon as possible to help those in need.

So, let's see, if we receive a message today, either from Kona or from Evan, or from both. Evan, if you feel something, let's go.

Evan : Okay, I can start first, Kona, I feel a message from… our beloved Jesus.

Main Addresses with Jesus

Friday Team - Session Monday 19th Oct 2026

Present: Kona Mahu, Evan Mariano, Juan Ramirez, Jacques Reverseau

1. The Kingdom of God: A Treasure in the Heart, Expressed Through Life

Jesus: Hello, my dear Friends. This is your brother, Jesus of Nazareth, also known as Joshua Ben Joseph in your Urantia book. I come today to greet you, to be with you, to speak with you, as my Dear Friends, my Colleagues, my Team, my Disciples. My dear … dear Brothers and Sisters, I'm so very happy to be with you. It isn't often that I come; because I am needed in so many places in the world. This world is my world. As I was here as you know, so many years ago, and I walked and shredded all the paths that you have also taken. It's part of your journey as human beings in this world.

I love this world, this blue, blue planet of yours. I was born and raised here. I saw the light of God here and I spoke to you much about what the Kingdom of God is.

Evan: I just…need to take a break [Evan was deeply moved while receiving Jesus's message and had to wipe tears from her face and this several times during its delivery.] Okay, that's okay now!

Jesus: The Kingdom of God is something that is not very easy to understand. A lot of people do not know what that means. But it is very, very plain and simple. It is what is in your heart as your treasure. That's the most important thing in your lives. Make that … make that thought some- something real in your lives.

Because of treasures that people normally see. Our treasures that account for things that others appreciate, and these are usually … of the world. So, don't be disheartened that there are many people who don't see the value of the Kingdom of God. But there is so much value there that you can share with them, with your experiences and the lives that you live, together with your family and friends.

Evan: Sorry, this is Evan [again], I'm just being emotional with Jesus … and He wants to continue.

Jesus: So, take heart and be strong, be of strong faith and goodwill. As I have told you before, be as gentle as doves and as wise of a serpent and that means… be your best always, when dealing with your neighbors and anyone that you meet in your world. The world is still very much the same, but it will change, it has to change. Let that come to your mind; let the Spirit of Truth be with you. Just as your God Fragment is with you, both of these will make you strong and full of courage to do the will of God and to teach people what it means to be God-Like, to be God-Conscious, to have some time [in your stillness time] for Him, who is our father. I will come back again. Good day.

Kona 16:42:43

Thank you so much, Evan, thank you, Christ Jesus, Christ Michael, for that beautiful message.

Evan: Thank you, thank you.

Kona 16:42:54

It's a great follow-up to the message that we had about prayer last week, in understanding the Kingdom of God inside of us. Thank you so much, Evan just take a minute to recover. I know sometimes I have to go off screen and recompose.

Evan: Okay, thank you.

Jacques: 6:43:16

Yes, thank you so much Evan, because it was a very profound message completely in line with what we have said before: How to solve the problem we face today on Earth on any country, Venezuela of course, but France, USA, Philippines, all around the world we are suffering. Here, this team is trying to find solutions, not to try, because we know we have solutions to offer. It's the way to push [to share] this message all around the world.

We have pushed the first message, sharing the first transcript officially through Substack. And it is just a start, because my friends every week, you will have a new message, and when you will read this message from today, you will be surprised by the beautiful words from Jesus, for this team and for the world, as a hope.

So, I don't know if Kona…you feel a message coming from our Melchizedek Team? Ashti?

Kona 16:44:31
Yes, I do believe that we have Sondjah with us today as well, so it'll be a double message, a double blessing. All right, just give me a moment.

Main Addresses with Sondjah

16:44:52

2. The Kingdom of God Within: Reconnecting to Spirit and Preparing to Reach Others

Sondjah: Dear friends, this is Sondjah. It is good to be with you, but hard to follow in the footsteps of Jesus, as you all well know. We simply admire our Creator Son on the Sea of Glass for his dedication to our many worlds, in addition to the extreme attention that he gives to your world. And yes, it is something to behold, to be in His presence, because even all of us as Created Beings are in awe of his magnificent and strong spirit.

So be assured that we sometimes, feel as you do the intensity of emotion in just hearing His words to us and yes, we do receive messages from our Creator Son as well, like you have received encouragement today.

The message of the Kingdom of God within is an important message for anyone in the universe, any planet, any solar system, but in particular… particularly on your planet, it is important because you have been disconnected from the Kingdom of God for so long.

Reconnecting to Spirit, as we have discussed before, is also reconnecting to this presence of the broader Kingdom of God, as expressed by Jesus Christ Michael in this transmission. So, imagine us here on the Sea of Glass, and we are all part of the same universe, belonging also to this kingdom of God, because it resides within us as it resides within you. However, we have some different connections that you will experience in your ascension career. But it is greater than you could possibly imagine.

There are clues through your ancient history and scriptures that give you a few details of what this might be like, as many teachers have come across the millennia to share this information with you. Just search, and you will find… seek, and you will find the clues to this kingdom, but better yet connect with the Great Spirit of the Mother Spirit, and know the Kingdom of God within you through your Thought Adjuster.

Now for the day and the tasks at hand, you are proceeding quite well, and we are pleased that you are taking time and attention to take care of the small details with the magazine, because then it will be so much easier for you going forward to simply develop the content. We are taking our time with you as well, so as not to overwhelm you with many people just yet, but it is coming, be assured. If there is anything that you have questions about, please feel free to ask today, as we are ready to assist you co-creatively. Thank you.

Group: Thank you Sondjah, thank you Kona.

Jacques 16:48:22

Yes, thank you, Kona, it's a pleasure to be with you again today. We know. Our task is very important for the world, but we are aware that we are not alone. the only group working for Christ Michael, so we stay humble here. Juan, do you have a specific question? You're muted.

Juan: No, my dear friend, thank you.

Evan 16:48:58

No, no, I have no question. I just wanted to say that. I don't know why it was emotional for me, but I have no explanation, sorry. But I'm, I'm back and it's as if it was a just a breeze, and it's a loving breeze. I'm happy about it, thank you.

Kona: I appreciate that, yes, it comes in, and it can be just like we talked about before, TRing, you get the presence, and especially the Jesus presence, which is a little bit different than… the Christ Michael presence, right? Because Jesus is the human, and we can connect with the humanity in our Creator Son in a very different way than connecting with Christ Michael as our Creator.

Evan: Yes

Kona: So, thank you for that. Jacques, go ahead.

Group Dialogue with Sondjah

1. The Message Is Complete on your Website However Ensure a "Smooth" Website for Readers

Jacques 16:50:01

Yes, Sondjah are still available for questions, I have a question. You said: we [Celestials] are following your job and take your time. But the question we had, I think we had this question during the last meeting. We were asking ourselves: Are we missing something on the first magazine? Or are we missing a message we should share with our audience for the next magazine issue?

Sondjah: Thank you for your question. It is not so much about the message. The message is quite complete. It is "the technical things" that we need you to have complete so that the container does not have holes in it. If you have holes in your container, the message cannot be contained in order to give it as fruitfully as possible. As this one knows, when people are confronted by technical difficulties, they turn away and they miss the message. So, it is really about making sure that you have a very smooth platform so that people do not miss the transmission because of the platform technicalities. Does that make sense?

2. Refining your Website for a Smooth Transmission of the Message

Jacques: Yes, I understand what you say. We cannot have platform which is difficult to read or to access, but when you say "your container does not need to have holes". Could you explain a little bit more what do you mean by that?

Sondjah: Certainly, as you have discussed, and this one is finding, there are places in your magazine in the technical pieces that still need refinement, and once this refining is done, then it will be a pleasure to be [navigate] on the website. From the perspective, let's say, you go to a movie theater, and you are watching a movie, and then all of a sudden, the reel ends or it tears, and you have to pause while it's being repaired. You might have had that experience in a very important part of the movie, and so then your focus turns towards the disruption rather than being in the moment or the emotion of the movie. So, these technicalities do become important when we

are trying to prepare and give a message electronically, as in your world. And yes, we do know that there are imperfections, and we want this to be a human process. But we do not want the technology to interfere with the message.

Jacques: Thank you, Sondjah, I think it's very clear, we need to find some 404 pages, which means data missing and we have to go all through the magazine, all together to click on all pages to see if the navigation is smooth. It's what I understand from your explanation, Sondjah.

Sondjah: Yes, thank you for making that very clear. It is important that you go back through and find any of the issues that may still exist and take care of those before you move forward with the next issue. Thank you so much.

Jacques: Thank you Sondjah, very clear. If we have no more questions Evan or Juan? … No? Okay. We thank you, Sondjah, it's a pleasure having you from the Sea of Glass with those who are watching us. We say hello, see you soon. Thank you.

Sondjah: Thank you so much. One last comment would be, do not take this as a criticism, or as if you have failed. It is simply working co-creatively to iron out the bumps, as you might say in your language, just to remove any of the anomalies that would prevent a smooth transmission from being received. Thank you so much.

Jacques: Thank you, Sondjah, thank you, Kona. Beautiful message, clear and loud.

Group: Thank you Sondjah and thank you Kona and Evan.

Evan: Thank you, thank you, you're welcome. I'm sorry, I did… I was… I get a lot of emotional …

Kona 16:54:52

You know, I keep my “tissue” right here, because I can happen at any time. And if I don't have my tissue, I have a great big napkin. You've seen me use that before, too, So… It's almost not — it's going to happen, so it's going to happen. Well, very well, my friends.
